Education

Princeton University Princeton, NJ, USA

Ph.D. in Operations Research and Financial Engineering

2019–Present

Ph.D. Candidate in the Operations Research and Financial Engineering (ORFE) Department.

Advisor: Matias Cattaneo

Research Interests: Mathematical statistics, causal inference, econometrics.

Princeton University

M.A. in Operations Research and Financial Engineering

Sc.B. with Honors in Applied Mathematics-Economics

Providence, RI, USA

Brown University Pr

2015–2019

Princeton, NJ, USA

Research

Publications

Boundary Adaptive Local Polynomial Conditional Density Estimators

Preprint

2019-2021

Joint work with Matias Cattaneo, Xinwei Ma and Michael Jansson

Developed a new local polynomial kernel density estimation method. Proved uniform consistency and inference procedures using strong approximation methods. Paper and companion R package information available here.

Working Papers

Consistency of Oblique Regression Trees

Joint work with Matias Cattaneo and Jason Klusowski

Working paper on consistency of oblique regression trees and forests.

Honors Thesis Brown University

Department for Applied Mathematics

2018-2019

Researched *energy-aware optimization of scalable load balancing strategies* under guidance of Kavita Ramanan. Thesis focused on understanding stationary behaviour of TABS scheme under general service time distribution and identifying parameters to achieve greater efficiency and lower energy costs. Explored long term stationary behaviour of the system under the TABS scheme through limit theorems.

Research Experience for Undergraduates (REU)

Worcester Polytechnique Institute

Center for Industrial Mathematics and Statistics, Worcester Polytechnic Institute

2018

8-week summer research sponsored by NSF on financial modelling under the mentorship of Marcel Blais and Stephan Sturm and industry liaisons Doherty Advisors LLC and State Street Global Services. (Award DMS 1757685)

Doherty Advisors LLC Project: Created options pricing model for VIX and TYVIX with real-time data scraping from Bloomberg Terminal for investment strategies. Programming in Python and R.

State Street Project: Worked on methodology to automate trade exception processing with the use of machine learning tools. All programming done in Python.

Research Experience for Undergraduates (REU)

CSU Chico

California State University, Chico

2017

7-week research sponsored by NSF on stochastic processes with Ben Nolting. Developed spatial point analysis of racially segregated communities and environmental justice factors using 2010 Census and EPA data. All programming done in Mathematica. (*Award NSF 1559788*)

Teaching Experience

Graduate Assistant in Instruction

Princeton, NJ 2020-Present

ORFE Department, Princeton University

ORF 524: Statistical Theory and Methods (Fall 2021)

ORF 245: Fundamentals of Statistics (Fall 2020, Spring 2021)

Senior Thesis Writer's Group Co-Leader ORFE Department, Princeton University

Princeton, NI 2020-Present

Host programming workshops and office hours to support 4th year undergraduate students in the ORFE department with Thesis research, development and writing.

Undergraduate Teaching Assistant

Providence, RI

Applied Mathematics Department, Brown University

Fall 2017, Spring 2019

TA for Dr. Ben Kunsberg's APMA 1650 (Fall 2017).

TA for Dr. Debankur Mukherjee's APMA1720: Monte Carlo Simulations with Applications to Finance (Spring 2019).

TA for Dr. Srikar Prasad's MPA2065:Intro. to Data Science for the Masters of Public Affairs program (Spring 2018).

Tutor Leader and Peer Tutor

Providence, RI

Member of Tutor Advisory Board, Dean of the College, Brown University

2017-2019

Tutored for ECON1110 Intermediate Microeconomics, ECON1210 Macroeconomics and ECON1629 Research Methods courses throughout the academic year. I organized monthly check-ins with and provided support to other Economics tutors.

Programming Skills

Advanced Proficiency: Python, R, Latex, MATLAB, Mathematica

Intermediate Proficiency: C++, STATA, Java

Conferences

Joint Mathematics Meeting

Baltimore, MD

AMS, MAA

Presented results of research done during REU at WPI (Summer 2018)

Graduate Research Opportunities for Women

Ann Arbor, MI

16-19 January, 2019

University of Michigan

26-28 October, 2018

Women in Mathematics in New England (WIMIN)

Northampton, MA

Smith College

22 September, 2018

Delivered a talk based on research done during REU at WPI.

MIST Workshop

Worcester, MA

WPI, Applied and Industrial Mathematics Institute for Secondary Teaching

16 July, 2018

Delivered a talk based on research done during REU at WPI.

Symposium for Undergraduates in Mathematical Sciences (SUMS)

Brown University

Providence, RI 17 March, 2018

Delivered a talk based on research done during REU at CSU, Chico.

Joint Mathematics Meeting

San Diego, CA

AMS, MAA

9-13 January, 2018

Presented research work done during REU at CSU, Chico.
